ADVANCED AGRICULTURE

ABOUT THE COMPANY

At SUPREME CHEMICAL VENUTES PVT. LTD., we have achieved success by prioritizing quality and commitment, supported by our strong techno-commercial background.

Our technical expertise enables us to develop innovative products at competitive costs, giving us an edge in the market. With robust infrastructure and abundant resources, we guarantee reliable and high-quality supplies to our customers.

Furthermore, our dedicated sales network plays a crucial role in building trust and ensuring continued success in the market.

ZINC SUPREME
Micro Nutrient Fertilizer

Zinc supreme is specialty micronutrient crafted to meet the specific needs of crops. Our unique blend incorporates essential micronutrients and secondary nutrients without filler material for robust plant growth.

Pack Size : 1 kg pouch (Micro N Supreme), 8 kg bag, 48 kg drum, 50 kg bag,
Dosage : Foliar -1 kg/acre / Drip/ broadcasting- 8kg/acre.

SUPER 7
Micro Nutrient Fertilizer

Super 7 is a high quality micronutrient powder designed to promote healthy plant growth. Cost effective and easily applied as soil application/ broadcasting.

Pack Size : 10 kg bag.
Dosage : Soil/ broadcasting- 10 kg/acre.

DE+
Micro Nutrient Fertilizer

A speciality Micronutrient Formulation With Amino Acids

DE+ features an excellent blend off Amino Acids, Micronutrients and secondary nutrients, thoughtfully selected to address the diverse nutritional requirements of plants.

Pack Size : 4 & 8 Kg bucket
Dosage : Soil/ broadcasting- 8 kg/acre.

SIRI ZINC 33%
ZINC SULPHATE MONOHYDRATE

SIRI ZINC 33% : ZINC SULPHATE MONOHYDRATE [33% ZINC]

It prevents and corrects all zinc deficiencies in the crop.

Pack Size : 10 kg (9.5kg filler + 500g technical)
Dosage : Broadcasting-10kgs / acre.

BORON 20+

DISODIUM OCTABORATE TETRAHYDRATE

BORON 20+ : Disodium Octaborate Tetra hydrate

Boron 20+ essential micronutrients ensures optimal flowering and pollen germination, leading to improved fruit set and enhanced crop yields.

Pack Size : 250g, 500g and 1 kg pouch.

Dosage : Foliar – 250gms/Acre Drip- 500 gms/acre and broadcasting 1 kg/acre.

HI-FER

FERROUS 19.0 %

HI-FER : FERROUS 19%

Hi-Fer offers a concentrated and effective solution for addressing iron deficiency and promoting healthy plant growth.

Pack Size : 1 kg pouch, 5 Kg, 10 Kg and 25kg Bag.

Dosage : Foliar – 1KG/Acre / Drip- 1KG/acre.

HI-MAG

MAGNESIUM 9.5%

HI-MAG : MAGNESIUM SULPHATE 9.5%

HI-MAG is a concentrated source of Magnesium, containing 9.5 % of Magnesium.

Pack Size : 1 kg pouch, 5kg, 10kg, 25kg & 50kg bag.

Dosage : Foliar 1kg/acre & broadcasting 10kg/acre.

SIRI ZINC 33%

ZINC SULPHATE MONOHYDRATE

SIRI ZINC 33% : ZINC SULPHATE MONOHYDRATE [33% ZINC]

It prevents and corrects all zinc deficiencies in the crop.

Pack Size : 100g, 250g and 500g pouch.

Dosage : Foliar -250gms, drip -500gms.

Zio

Zinc Oxide - 39.5 %

Zio : ZINC OXIDE 39.5% SUSPENSION

Zio is a liquid zinc fertilizer contains a concentrated formulation of 39.5% Zinc Oxide, providing plants with a potent source of Zinc.

Pack Size : 250ml, 500ml and 1Liter HDPE BOTTLE

Dosage : For foliar spray 250ml/acre and drip 500ml/acre.

KEELELED ZINC
12 % ZINC EDTA

KEELELED ZINC: 12 % Zinc EDTA

Keeleled zinc consisting of Zinc metals is guaranteed 100% "Chelated" with EDTA (Ethylene Diamine Tetra Acetic Acid). Instantly soluble in water.

Pack Size : 100g, 250g, 500g and 1 kg pouch.

Dosage : Foliar – 250 gms /acre /Drip- 500gms/acre and broadcasting 1 kg/acre.

ZIMA

Chelated Micronutrient in Liquid Formulation

ZIMA : Chelated Micronutrient - with Calcium

Zima is a valuable liquid chelated micronutrient fertilizer specifically formulated to support crop recovery from disease and stress when used in conjunction with chemical pesticides.

Pack Size : 100ml, 250ml, and 500ml HDPE BOTTLE.

Dosage : For drip 250ml /acre, spraying 250ml/acre.

ZIMA PREMIUM

Chelated Micronutrient Powder

ZIMA PREMIUM : Chelated Micronutrient Powder : Zima Premium containing chelated Zinc, Ferrous, Manganese, and Calcium, along with non-chelated Boron, ensures comprehensive nutrient support for plants facing pest attacks, drought, and physiological disorders.

Pack Size : 100g, 200g and 500g pouch.

Dosage : For spraying 100gms/acre and 200gms/acre for fertigation or Drip irrigation.

CHLORO PLUS

12 % FE EDTA

CHLORO PLUS : Chelated Ferrous 12 % EDTA

Chloro plus provides a readily available source of chelated iron, making it an effective solution for correcting iron deficiency in crops.

Pack Size : 100g, 250g & 500g pouch.

Dosage : Foliar-250gms/acre / Drip and broadcasting- 500gms/acre.

CHEVA
K-MAG + CTE

CHEVA : Potassium Magnesium Sulphate and chelated trace elements

Cheva is a unique source of plant nutrition provides a balanced blend of Potassium, Magnesium, and Sulphur and also chelated trace nutrients.

Pack Size : 1kg pouch.

Dosage : For foliar spray 1kg/acre and drip 2kg/acre.

HIPPO
Potassium Schoenite

HIPPO : POTASSIUM SCHOENITE FERTILIZER (WSF)

HIPPO contains Potassium Schoenite, a double salt of Potassium and Magnesium. This unique formulation provides plants with a balanced supply of Potassium and Magnesium.

Pack Size : 5kg bucket, 10kg bucket and 20kg bag.

Dosage : Drip 5kg/acre and broadcasting 10 kg/acre.

GARUDA PLUS
Potassium Schoenite Fertilizer

GARUDA PLUS-Potassium Schoenite : Potassium Schoenite Fertilizer is a high-performance, water-soluble fertilizer that provides essential nutrients for crop growth and development. It is a blend of potassium, magnesium, and sulphur, which are all essential for plant health.

Pack Size : 5kg bag and 20kg bag.

Dosage : Drip 5kg/acre.

GALAXY
GROWTH STIMULANT

GALAXY : Amino Acids

Galaxy provides a concentrated source of amino acids, which are essential building blocks for protein synthesis and plant growth.

Pack Size : 100, 250, 500, 1liter, 5 HDPE BOTTLE, 20 liter CAN.
Dosage : Foliar 500ml and drip 1 liter/acre.

FLOURISH
FLOWER BOOSTER

FLOURISH : AMINO ACIDS and HUMIC ACID

Flourish is Amino Acid based Bio-Stimulant for vegetative development of crops. Flourish stimulates profuse and uniform flowering.

Pack Size : 100ml, 250ml, 500ml
Dosage : Foliar 100 to 150ml / Acre.

POSHAK
GROWTH ENHANCER

POSHAK: HUMIC ACID LIQUID

Poshak, with its pure humic acid formulation, offers numerous benefits for plant growth and development.

Pack size : 500ml, 1 Lt, 5 Lt, and 20 Lt.
DOSAGE : Foliar 1 liter /acre, Drip 5 litres /acre

KAM POSHAK
PLANT GROWTH VITALIZER

KAM POSHAK : POTASSIUM HUMATE & POTASSIUM FULVATE, MICRO NUTRIENTS.

Kam Poshak, with its unique blend of Potassium Humate and Potassium Fulvate, offers significant advantages for crop production.

Pack Size : 250gm and 500gm.
Dosage : Foliar 500gms /acre for drip and broadcasting 500gms /acre.

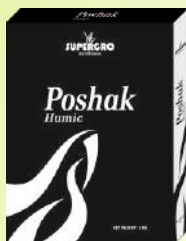

HI-YIELD
GROWTH PROMOTER & YIELD ENHANCER

HI-YIELD : HUMIC ACID, MICRO NUTRIENTS & PROTEINS

Hi-Yield granules improve the soil structure and aeration of the soil. Increases availability of soil nutrients and improves soil water holding capacity.

Pack Size : 10 kg bucket and 48 kg drum.
Dosage : Broadcasting 10 kg/ acre.

POSHAK HUMIC
Humic Acid

POSHAK : HUMIC ACID POWDER

Poshak, with its pure humic acid formulation, offers numerous benefits for plant growth and development.

Pack Size : 250g, 500g & 1kg

DOSAGE : Foliar 1kg /acre, Drip 5kgs /acre

FULL SIZE
Fruit Enhancer

FULL SIZE : Full size is a plant energizer and yield booster.

Full Size offers a comprehensive solution for plant nutrition and growth enhancement.

Pack Size : 500ml, 1 & 5 liters.

DOSAGE : Foliar 500ml/acre. Drip 1 liters /acre.

FULL FILL
CROP YIELD BOOSTER

FULL FILL : Combination of plant nutrients and seaweed extracts

Full Fill offers a comprehensive solution for plant nutrition, with its unique blend of essential nutrients and seaweed extracts.

Pack Size : 500ml, 1 & 5 liters.

DOSAGE : Foliar 500ml /acre, Drip 1 liters /acre.

LEAFMATE

LEAF MATE : Sticking & spreading agent : Leaf mate improves the adhesion of agrochemicals (such as pesticides, fertilizers, and growth regulators) to plant surfaces. This ensures better coverage and penetration of the sprayed solution.

Pack Size : 100ml, 250ml, 500ml & 1 Liter.

Dosage : Foliar 0.5ml/liter.

UTTEZ
Seaweed Extract

UTTEZ: SEAWEED EXTRACT

UTTEZ (Seaweed extract) - Bio stimulant offers multiple advantages for crop development and plant health.

Pack Size : 100ml, 250ml & 500ml, 1Liter HDPE Bottle

Dosage : Foliar 250ml and drip 500ml/acre

AZOTOGRO
NITROGEN FIXING INOCULANT

AZOTOGRO : Nitrogen-fixing bacteria

AZOTOGRO is a natural biological inoculants based on selective strains of nitrogen-fixing bacteria.

CELL COUNT : Colony forming units - 1×10^9 cells per ml of liquid.

PHOSPHOGRO
Phosphorous Solubilizing Bacteria

PHOSPHOGRO : Phosphorous Solubilizing Bacteria (PSB)

PHOSPHOGRO is a formulation containing consortia of highly effective strains of Phosphate Solubilizing Bacteria (PSB).

CELL COUNT : Colony forming units - 1×10^9 cells per ml of liquid

AURENTIAGRO
CONTAINS STRAINS OF FRATEURIA AURENTIA.

AURENTIAGRO : POTASH MOBILIZING BACTERIA

AURENTIAGRO is a beneficial bacterial strain capable of mobilizing available Potash to the roots of the plants.

CELL COUNT : Colony forming units - 1×10^9 cells per ml of liquid.

POSHAK SPECIAL
Zinc Solubilizing Bacteria

POSHAK SPECIAL : ZINC SOLUBLIZING BACTERIA

POSHAK SPECIAL is capable of mobilizing required Zinc to target crops.

CELL COUNT : Colony forming units - 1×10^9 cells per ml of liquid.

BIO GRO
NPK CONSORTIUM

BIO GRO: NPK CONSORTIA

BIO GRO LIQUID (Bio fertilizer) is a blend of microbes capable of fixing nitrogen, solubilizing phosphorous, and mobilizing potash to provide well-balanced nutrition to crops.

CELL COUNT : Colony forming units - 1.5×10^8 cells per ml of liquid.

CHILLI KIT

The **CHILLI KIT** is specially designed plant nourishing nutrients for a comprehensive growth, development and higher productivity of Chilli.

Contents :

- | | |
|--|---|
| Azotogro : 1 Litre (Nitrogen fixing bacteria) | Poshak special : 1 Litre (Zinc solubilizing bacteria) |
| Phosphogro : 1 Litre (Phosphorous solubilizing bacteria) | Zinc Supreme : 8kg (Multi Micronutrient) |
| Aurentiagro : 1 Litre (Potash mobilizing bacteria) | Kam Poshak : 500g (A root growth stimulator) |

BANANA KIT

The **BANANA KIT** consists of bacterial based bioinoculents in liquid grade, granular micronutrients, and a growth promoter. Banana kit is intended to be used in Banana, Papaya.

Contents :

- | | |
|--|---|
| Azotogro : 1 Litre (Nitrogen fixing bacteria) | Poshak special : 1 Litre (Zinc solubilizing bacteria) |
| Phosphogro : 1 Litre (Phosphorous solubilizing bacteria) | Zinc Supreme : 8kg (Multi Micronutrient) |
| Aurentiagro : 1 Litre (Potash mobilizing bacteria) | Kam Poshak : 500g (A root growth stimulator) |

TOMATO KIT

The **TOMATO KIT** consists of bacterial based bioinoculents in liquid grade, granular micro nutrients and a growth promoter.

Contents :

- | | |
|--|---|
| Azotogro : 1 Litre (Nitrogen fixing bacteria) | Poshak special : 1 Litre (Zinc solubilizing bacteria) |
| Phosphogro : 1 Litre (Phosphorous solubilizing bacteria) | Zinc Supreme : 8kg (Multi Micronutrient) |
| Aurentiagro : 1 Litre (Potash mobilizing bacteria) | Kam Poshak : 500g (A root growth stimulator) |

TURMERIC & GINGER KIT

The **TURMERIC KIT** is specially designed plant nourishing nutrients for a comprehensive growth, development and higher productivity of Turmeric.

Contents :

- | | |
|--|---|
| Azotogro : 1 Litre (Nitrogen fixing bacteria) | Poshak special : 1 Litre (Zinc solubilizing bacteria) |
| Phosphogro : 1 Litre (Phosphorous solubilizing bacteria) | Zinc special : 8kg (Multi Micronutrient) |
| Vam Plus : 500gm (Vascular Arbuscular Mycorrhiza) | Kam Poshak : 500g (A root growth stimulator) |

SUGARCANE KIT

The **SUGAR KIT** consists of bacterial based bioinoculants in liquid grade, granular micronutrients and a growth promoter.

Contents :

- | | |
|--|---|
| Azotogro : 1 Litre (Nitrogen fixing bacteria) | Poshak special : 1 Litre (Zinc solubilizing bacteria) |
| Phosphogro : 1 Litre (Phosphorous solubilizing bacteria) | Zinc special : 8kg (Multi Micronutrient) |
| Aurentiagro : 1 Litre (Potash mobilizing bacteria) | Kam Poshak : 500g (A root growth stimulator) |

POTATO KIT

The **POTATO KIT** is specially designed plant nourishing nutrients for a comprehensive growth, development and higher productivity of Potato.

Contents :

- | | |
|---|---|
| Azotogro : 1 Litre (Nitrogen fixing bacteria) | Vam Plus : 500gm (Vascular Arbuscular Mycorrhiza) |
| Phosphogro : 1Litre (Phosphorous solubilizing bacteria) | Zinc special : 8kg (Multi Micronutrient) |
| Poshak special : 1 Litre (Zinc solubilizing bacteria) | Kam Poshak : 500g (A root growth stimulator) |

FLOWER KIT

Bioinoculants and revolutionize flower gardening experience. Our Bioinoculants are specially formulated to enhance the performance of flower plants, ensuring bigger blooms with robust petals bursting with vivid colors.

Contents :

- | | |
|---|---|
| Azotogro : 1 Litre (Nitrogen fixing bacteria) | Poshak special : 1 Litre (Zinc solubilizing bacteria) |
| Phosphogro : 1Litre (Phosphorous solubilizing bacteria) | Zinc special : 8kg (Multi Micronutrient) |
| Aurentiagro : 1 Litre (Potash mobilizing bacteria) | Kam Poshak : 500g (A root growth stimulator) |

MELONS KIT

Specifically made for watermelon plants, our Bioinoculants help growing bigger, sweeter and juicer watermelons with vibrant colors and extended shelf life.

Contents :

- | | |
|---|---|
| Azotogro : 1 Litre (Nitrogen fixing bacteria) | Poshak special : 1 Litre (Zinc solubilizing bacteria) |
| Phosphogro : 1Litre (Phosphorous solubilizing bacteria) | Zinc special : 8kg (Multi Micronutrient) |
| Aurentiagro : 1 Litre (Potash mobilizing bacteria) | Kam Poshak : 500g (A root growth stimulator) |

VAM PLUS
VESICULAR ARBUSCULAR MYCORRHIZA

VAM – Vesicular Arbuscular Mychorizae

Vam Plus is Bio Fertilizer Vesicular Arbuscular Mycorrhizal associates symbiotically with the roots of the plants and helps in the increased absorption of phosphorous.

Pack Size : 500 gms box

DOSAGE : BROADCASTING 500 gms/acre

SARVATRA

A unique mixture of chelated Amino acids, Micro nutrients & enriched with NPK in powder formulation

Sarvatra in powder formulation, enriched with micronutrients and chelated amino acids, it offers comprehensive nourishment to plants. Alongside, it contains essential major nutrients such as Nitrogen, Phosphorus, and Potassium, vital for plant growth. This balanced blend ensures optimal nutrient uptake and promotes robust crop development.

Pack Size : 1 kg, 500 g & 250 g

Dosage : 500 g/ Acre

SAMPOORNA

A unique mixture of chelated Amino acids, Micro nutrients & enriched with NPK in liquid formulation

Sampoorna in liquid formulation, enriched with micronutrients and chelated amino acids, it offers comprehensive nourishment to plants. Alongside, it contains essential major nutrients such as Nitrogen, Phosphorus, and Potassium, vital for plant growth. This balanced blend ensures optimal nutrient uptake and promotes robust crop development.

Pack Size : 1 lt, 500 ml & 250 ml

Dosage : 500 ml/Acre

GALAXY PRO

A unique mixture of Micro nutrients, chelated Amino acids enriched with NPK in liquid formulation

Galaxy Pro is enriched with humic acids and hydrolysed proteins, it's the perfect formula for nurturing healthier plants and maximizing yields.

Pack Size : 1 Litre, 500 ml & 250 ml

Dosage : 500ml/ Acre

UTTEZ GR

UTTEZ GR : Seaweed extract granules are a natural, organic source of essential nutrients, including nitrogen, potassium, phosphorus, and trace elements.
Stimulates Growth : Enriched with natural growth hormones, seaweed extract granules promote root development and overall plant growth.

Pack Size : 10 Kg
Dosage : 10 Kg / Acre

ZIO LITE Silicon Based Granules

Silicon Granules Enrichment : Zio Lite, our innovative crop nutrient formulation, features silicon granules as its primary ingredient, harnessing the power of this essential element to enhance crop growth.

Pack Size : 10 & 20 Kg Bag
Dosage : 10 Kg / Acre

VAM PRO Vesicular Arbuscular Mycorrhiz

VAM granules contain spores of vesicular arbuscular mycorrhizal fungi (VAMF). These fungi form a symbiotic relationship with the roots of most plants, including agricultural crops.

The VAMF colonize the root system of the plant, forming structures called arbuscules and vesicles within the root cells. The fungi provide the plant with nutrients such as phosphorus and receive carbohydrates from the plant in return.

Pack Size : 10 Kg **Dosage** : 5 Kg / Acre
